

October 2011

Dear Friend,

There is no greater landmark in our village than the historic Roycroft Campus - bordered by its' iconic stone wall. You've sat on it, walked on it, or simply cherished it as a part of our community. Today you have an exclusive opportunity to invest in its future AND own a piece of its history.

The beloved stone wall on the Roycroft Campus along South Grove Street is in desperate need of repair. The Roycroft Campus Corporation (RCC) has secured time-sensitive funding for a portion of the restoration expense. We're hopeful that we can raise the remaining portion through your support.

For a limited time, the RCC is offering original keepsake roof tiles, capstones and chimney bricks from the 1909 Roycroft Power House. In addition to receiving one of these historic treasures, your name will be engraved on an individual or group plaque in perpetuity for future generations to admire and thank.

As outlined on the next page, we are offering "Roycroft Rocks" packages at varying donation and benefit levels. We hope that you'll be excited to participate in this program and enjoy the many benefits associated with giving. These packages would also make great gifts!

The wall has supported us for over 100 years. We invite you to take this opportunity to support the wall.

Sincerely,
